EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mikael Havlucian on 01/16/07. The application has been amended as follows:

In the claims:

Claims 10-67. (cancelled).

REASONS FOR ALLOWANCE

2. Claims 1-9 are allowed. The following is a statement of the examiner's reasons for allowance. The present application relates generally to ophthalmic instruments. Regarding claim 1, the prior art fails to disclose a distal plate with a central aperture and at least one detection element integrated with the distal plate. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

3. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other Information/Remarks

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yamada (US Patent 6,364,484) and Kohayakawa (US Patent 5,903,336) discloses similar headrests for use with an ophthalmic instrument. Janninck et al. (US Patent 6,768,899) discloses detection element applications.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Dinh whose telephone number is 571-272-2327. The examiner can normally be reached on M-F (9:30 AM - 6:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ricky L. Mack, can be reached at 571-272-2333. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
